

Comfort Grip

The ComfortGrip two component handle:

- A tough thermoplastic core for strength and resistance to splitting
- Molded-on rubber coating for superior grip
- Handle shape prevents rolling on surfaces angled up to 15°
- Available in very small sizes for delicate tasks (0.050", 1.27mm, T5)
- Much faster than ball end hex keys in assembly and frequent use applications

Bondhus handles are designed and sized to match the torque capacity of each blade tip.

Ergonomically designed handles deliver maximum torque with unrivaled comfort and grip

Slight texture of handles helps retain grip, even when hands are wet or oily

Color Coded

- Inch
- Metric
- Star

**Made in
USA**

High Torque Steel:

- Up to 20% stronger, with more torque and twice the wear resistance of standard grades of steel.

Corrosion-resistant finish:

- Environmentally safe, provides better tool grip, resists solvents and is 5 times more corrosion resistant than competitor finishes.

Protanium® High Torque Steel

- Up to 20% stronger than competitors
- Extra strong=Extra torque

ProGuard™ Corrosion Resistance for longer tool life

- Prevents rust...5 times better than other leading brands

BriteGuard™ Finish

- Exclusive plated finish
- Corrosion resistant
- Contamination free barrier
