

**We carry the complete  
line of Bondhus tool  
sets and singles.  
Come see our large  
selection of high  
quality Bondhus tools.**

## THE BONDHUS LINE-UP

### ProHold™ Screw Holding Ballpoint Tools

keep a tight hold on the screw. This innovative tool doesn't lose its grip! They also feature the Balldriver® design for easy angle entry. Available in L-wrench, T-handles and Screwdrivers

### Balldriver® Hex Tools

with the best ball design so you can enter screws at angles up to 25° off center. Use these tools to save time and get at those tough to reach hex screws.

### Hex L-wrenches

for high torque. Available in long and short lengths.

### Protanium® High Torque Steel

is up to 20% stronger than competitors. Gives all the power needed to tackle even the toughest jobs.

### ProGuard™

### Dry Surface Technology

is 5 times more effective than the next leading brand in preventing rust, protecting your investment over time.

### Stubby Balldriver® L-wrenches

Perfect in those tight, blind locations. Available in Black or Briteguard™ Plated Finish for extra durability.

### GorillaGrip® Fold Ups

Engineered composite handle is 40% stronger than metal handles. Patented integrated flutes allow the selection of one key at a time. Compact Design available in Hex, Ballpoint Hex, Star-Recessed and Utility Sets.

### Balldriver® Screwdrivers

Designed to tackle even the toughest application. Available in regular, long and extra long lengths.

### Cushion Grip T-Handle

provides maximum comfort and supreme performance. Precision welding makes it the ultimate in strength and safety. If you need high torque, this is the tool to use!

# BONDHUS® Tools Are Better.

- Backed by a Lifetime Warranty.
- Proven with extensive, independent product testing
- **ProTanium** High Torque Steel makes our tools the strongest available.
- **ProGuard DST** Dry Surface Technology protects your tools from rust.

## INNOVATIVE
