

## Product overview

Girder clamps		
Special clamps		Examples of use
<p><b>Type CF</b> (R 82045)</p>  	<p>Clamps for frictional loads.                      Can be used in connection with type AF.                      This type hooks around the flange edge of the profiles.</p>	
<p><b>Type BSNT</b> (R 82003)</p> 	<p>Special clamps for the assembly of girders – flange on flange. The inner plate is replaced by a flat steel frame which is welded onto the clamp.</p>	
<p><b>Type F9</b> (R 82009)</p>  	<p>Flange clamp for parallel girders with identical widths. Not suitable for tapered flanges.</p>	

Support fixings				
<p><b>Type FLS</b> (R 82068)</p>    <p>Girder clamp with swivel for use with parallel and inclined flanges</p>	<p><b>Type FL</b> (R 82008 / 82058)</p>    <p>Girder clamp for parallel and inclined flanges with clearance hole or threaded hole</p>	<p><b>Type LC</b> (R 82025)</p>   <p>Girder clamp for parallel and inclined flanges with threaded hole parallel and perpendicular to the adjusting screw</p>	<p><b>Type F3</b> (R 82022)</p>    <p>Two-part flange clamp with large clamping area for use on parallel flanges.</p>	<p><b>Type TC</b> (R 82024)</p>   <p>Toggle fixings for mounting to hollow ceilings or steel profiles</p>

Cavity fixings		Examples of use
<p><b>Type HB</b> (R 82031)</p>  	<p>Suitable for hollow sections, tubes and where access is available from one side only.</p>	

Floor fixings		Examples of use
<p><b>Type FF - Floorfast</b> (R 82019)</p>  	<p>The eccentric stepped web of the casting allows it to lock under the steelwork, providing full face contact when torque is applied. Lloyds' Register Type Approval covers clamping force and vibration.</p>	
<p><b>Type GF3030</b> (R 83030)</p>  	<p>Grating clamp for fast installation on parallel flanges girders.</p>	

(R = R264 - article numbers)
