# Company & Products

**Welcome**  
70 years of services to our customers has established our position as the leading manufacturer of premium quality installation systems.

Outstanding product quality, permanent advancement as well as first class service - these principles form the foundations of our long term partnerships with customers and suppliers. Consistency combined with competence and a sense of the users' requirements fuelled ground-breaking developments in material properties and product design.

## Product Mix

The Univolt product mix offers everything required for state-of-the-art installation systems.

- Conduits and ductings for electrical installations
- Lightning Protection and earthing
- Cable trunkings, cable trays and mounting material
- Assemblies for construction sites

the conduit of choice. With FXP-Turbo for the pliable and **VRM-Turbo/UPRM-Turbo** for the rigid conduits installers can considerably **reduce the force and time** necessary for inserting cables hence achieve an observable **saving in costs.**

The **broad selection** of accessories complements the Turbo concept consistently:

- boxes
- clips
- couplers
- plugs

## HFT®-Programme

**Fumes and gases**, especially those released by PVC, cause most of the casualties in cases of fires. **HFT® conduits** help to reduce this risk: the **halogenfree material** is highly

**flame retardant** and **temperature resistant** and generates significantly less toxic gases.

**HFT®** stands for increased **safety** for human lives, valuable assets and data systems.

## The Turbo-Family

Our newly introduced **turbo products** make installations **easier and faster**. Since their launch in 2005 they have become even more popular and today they are

The ideal supplement to a high grade cable management system.
