

Steam pipe: Stainless steel tube with SERTO nut connectors

Examples of pre-assembled stainless steel tubing and PFA hoses

Example of Application

WMF Württembergische Metallwarenfabrik AG - Stainless steel in the coffee machine industry

WMF is a successful, traditional, high-quality brand for cooking utensils and cutlery. SERTO parts are built into their coffee machines for the hotel and restaurant trade – a market sector with clear price concepts and quality requirements.

D-73309 Geislingen www.wmf.de
Hotel catering / Commercial coffee machines

WMF has developed over the past 150 years from a small plating factory, Straub & Schweizer, to a global enterprise with nearly 6,000 employees. They are providers of products and services that focus mainly on table and kitchenware for household and professional use; they are the market leaders in terms of value of cookware and of course cutlery. WMF owns production and service companies in Geislingen/D, in the Czech Republic and China. They distribute their products through subsidiaries as well as 200 of their own branches in Germany, Austria, Switzerland and France. Under the corporate umbrella, WMF unites such reputable brands as e.g. Kaiser Backformen, Silit, Schaerer, Auerhahn, enabling synergies and thus contributing to the overall economic success of the company.

APPLICATION

SERTO products: **pre-bent, ready-to-fit stainless steel tubes, unions, brazed, pre-assembled kits, straight and hot-formed, ready-to-fit hoses**

Installation: Medium-conveying tube systems

PARAMETERS

Medium:	Water, steam
Pressure:	0 - 16 bar
Temperature:	20°C - 145°C

WMF and SERTO have been doing business together for decades. At first, SERTO supplied mainly unions to WMF, but other products soon followed. Since 2004 the co-operation between the two firms has been rapidly expanding. Several tens of thousands ready-to-fit FEP and PFA hoses were supplied. Stainless steel tubes and steam pipes as well as assembly kits top off the scope of supply.

“Because of the very high level of quality of SERTO products and the on-time delivery we have been able to realise significant savings. We recommend SERTO as a very competent and reliable partner.”
Holger Schönholz, Technical Purchasing, WMF AG
